To be a reliable company in the field of building construction and property services

“Best Value for Clients”

VALUE

MISSION

1. Produce construction products and building quality properties
2. Presenting a product design
3. Applying “Regional Best Practice”
4. Provide added value to stakeholders

VALUES & BENEFITS

for Customer Innovative & Trustworthy

• Customer is the Key

We actively discuss with our clients during the course of a project. We view all of the client's considerations as valuable input required to fulfill the client's demands. For us, a project's success occurs when the project's results is well received by the customers and exceeds their expectations. We are confident that if this is achieved, we are able to maintain our reputation.

• Innovation is the Keyword

Innovation is a vital element of a project. Innovation is reflected in the design as well as the process of the project thereby making the completed project distinct from other projects. Innovation is also reflected in the superior quality of the building, which places us in the lead within the high-rise construction industry.

• Trustworthy

Trust is not only gained merely from our customers but also from all of our stakeholders. We strive to become the trusted partner that fulfills our commitment with those promised for all of our stakeholders.

WHY WIKA Gedung

WIKA Gedung has 3 core businesses, which include construction, property developer, and consultancy. These three core businesses complement one another thereby allowing the Company to achieve the quality of project that makes WIKA Gedung as the leader in the building construction industry.

Our business also includes property developer that is an integral part of a high-rise property development.

In our quest to produce superior quality properties, we are supported by a solid engineering team and offer a design and construction team that is optimum, environmentally-friendly, competitive, efficient and utilize the latest technology.

We do not merely emphasize on constructing buildings but also take into consideration other aspects such as the building's strength, security, health, comfort, beauty, aesthetics, and are environmentally-friendly. Our ability

to fulfill all these aspects as well as our ability to implement sophisticated methods and technology for various projects and owners (government as well as private companies) has resulted in confidence and trust for WIKA Gedung to implement the projects.

PROPERTY DEVELOPER

Our Core Business

SAFETY, HEALTH & ENVIRONMENT

As a high-rise construction Company, WIKA Gedung does not merely concentrate on completing the physical structure but also aspects related to the building's strength, security, health, comfort, beauty, aesthetic qualities, as well as environmental balance.

We believe that success is measured by our ability to fulfill all of these aspects. The Company applies and develops a Safety Health, and Environment System to prevent and mitigate accidents and diseases at the workplace.

Our Company is committed to applying and developing the Environmental Management System to prevent and mitigate environmental pollution so as to enhance the quality of life for generations to come as well as ensure sustainable growth.

Our Core Business

CONSULTANCY

To complement our business, we also offer consultancy services in high-rise constructions.

This consultancy covers various aspects, beginning from the design stage and all the way up to the process of developing an environmentally-friendly building.

We are prepared to provide solutions to every problem encountered by our clients and provide buildings that are in accordance with their expectations.

Our Core Business

CONSTRUCTION

We offer high-rise building construction services with an integrated design and construction, superior quality, environmentally-friendly, as well as apply efficient and dependable technology thereby.

Making us a reputable and trusted Company within the construction industry.
